Professional Protein Service Provider

Shanghai Wansheng Haotian Biotechnology Co., Ltd. (the company for short) is a widely recognized biotechnology company, a enterprise specializing in the production and sales of various molecular biology technology products and related technical services. The company has a well-structured R&D, production and sales team. Has a subsidiary company, Anhui Haotuo, a professional production base and laboratory. The company is committed to providing customers with high-quality, low-cost biotechnology services and products.

Since 2016, the company has developed a series of electrophoresis products, which have been unanimously recognized in the domestic and international markets. Customers are located in world-renowned universities and research institutions. As of January 2022, the company has 3 inventions, 3 utility models, 1 soft book, and a total of 7 patents. The company insists on taking technological innovation as the guide to build a first-class scientific and technological service platform and production base; at the same time, the company adheres to the principle of customer first, and wholeheartedly provides high-quality, high-efficiency and low-cost technical services and products for the biotechnology industry. Development provides strong support.
